Post Graduate Programme in Data Science for Climate and Health

Become a Data Scientist for Global Change

This is an 11-month advanced data science certificate programme, developed by BITS Pilani WILP in collaboration with data.org, to equip working professionals with essential data skills.

Programme Highlights:

- ▶ Pursue the programme without a career break.
- ▶ The programme uses extensive digital content including expert lecture videos and engaging digital learning material available online.
- ▶ Gain hands-on experience with data with an 8-week project addressing a real-life problem in climate change, health, or their intersection.

Scholarships for Working Professionals

- ▶ 100% scholarship* will be awarded to professionals employed in NGOs, who meet the programme eligibility criteria and are selected based on their existing work profile and an interview conducted by the Institute's designated officials. This scholarship will be given to 30 professionals on a first come first serve basis, provided they meet the eligibility criteria.
- ▶ 75% scholarship* will be awarded to working professionals who meet the programme eligibility criteria and are selected based on their existing work profile, and an interview conducted by the Institute's designated officials.
